Three Generations Crop Reporters To Be Recognized Next Week

Three generations of Crop reporting by the Graybill Hershey family of Manheim, will be recognized at the Pennsylvania State Farm Show. Mr. Hershey enrolled as a reporter in 1934 and continued until December 1961 when his son Daniel assumed the traditional duty. The elder Hershey's service dated back to pre-World War I days when he assisted his father with reporting.

Twelve outstanding volunteer crop reporters will receive meritorious awards. The recipients were selected on the basis of years of service and regularity of reports to the State Crop Reporting Service.

State Secretary of Agriculture William L Henning will make the presentations at the fourth annual Pennsylvania Crop Reporters meeting, on Thursday, January 11.

There are approximately 15,000 voluntary crop reporters located throughout all areas of the state actively engaged in submitting monthly or periodic crop and livestock reports to the Pennsylvania Crop Reporting Service. The reports embrace acreages and yields of the principal crops grown in the Commonwealth; livestock on farms, and livestock production.

The monthly and periodic reports directly from the farm front by the producers provide the basic data from which official estimates are determined

Fred Frey Wins Five Acre Corn Contest Harvests 170.2 Bushels Per Acre

Fred Frey, owner and manager of Twin Oaks Farms, Quarryville R2 has won top spot in the Lancaster County five-acre corn contests with a total of 170.2 bushels of shelled corn per acre.

Frey planted his Pfister FSX19 on the 10th of May and got a stand of 17,480 plants per acre. When the yield was checked by personnel of the County Agent's office on October 12, the grains tested 17.7 per cent moisture.

"I planted that piece of corn on ground that has been in corn for about five years," Frey said. He also felt it was not as thick as it might have been, but he had plant food available for the crop and each year the stover is plowed back into the soil. "I believe my corn crop has been better every year I have planted corn after corn in this field," he said.

Second high yeild in the county was made by Harold Rohrer, Lancaster R7, with a stand of 18,801 plants per acre of Funk G91. His yield of 161.8 bushels per acre was checked on October 3 when his corn moisture tested 20.7 per cent. He planted his corn on May 17.

Levi and Clinton Rohrer of Lititz R2 made 157.5 bushels per acre with 29,810 plants per acre of Funk G93. They planted May 16.

Last year's winner, Clarence Keener, Sr., Manheim R3 was in fourth place with 154 8 bushels per acre He planted 18,050 plants per acre on May 17.

Other blue ribbon winners in the contest were Carl Shelly of Manheim R1 with 153 5 bushels per acre; Jay Garber, Lancaster R6, with 153 2 bushels per acre and Lloyd Sensenig, Ephrata R1 with 150 bushels per acre. All contestants producing over 150 bushels per acre were awarded blue ribbons, Red ribbons went to farmers producing between 125 and 149.9 bushels per acre.

All records were made on the basis of 56 pounds per bushel of shelled corn corrected to 15 5 per cent moisture. Yield checks were made by County Extension Service personnel and verified by the Pennsylvania State University.

Tobacco Sales Open Season

The Lancaster County tobacco market opened this week with two firms going into the field with contract books Wednesday and most of the other buyers following suit Thursday.

Consolidated Cigar Corp and P. Lorillard Co. were reported buying some tobacco at 30 and 20 on Wednesday afternoon.

On Thursday these two firms were followed into the sheds by American Tobacco Co. offering 25 to 30 for wrappers and 15 to 20 for fillers considering quality, General Cigar Co. paying 30 and 20, and Bloch Brothers buying some crops a 27 through with the junk out. Consolidated continued its

(Turn to page 16)

The annual FARM SHOW section will be found on pages 5 through 12 of this issue of Lancaster Farming. The section includes a preview story of the Farm Show, a story about each of Lancaster County's state degree winners in both FHA and FFA, the complete Farm Show schedule, and other interesting Farm Show features. We suggest you lift the section out and take it to the Farm Show with you. Because of the special section, Women's Features this week will be found on pages 13 and 14.

Lancaster Farming Purchases Lititz Record-Express Newspaper

Robert G. Campbell, Publisher of LANCASTER FARMING, this week announced the purchase of the LITITZ RECORD EXPRESS and the Record Printing Company, commercial printing unit operated jointly with the paper.

The transaction, which became effective January 1, included the business, equipment and machinery of the Record-Express, one of the county's oldest weekly newspapers.

Operation of the printing plant and publication of the Lititz Record Express was assumed by Campbell and will be operated jointly with Lancaster Farming.

William N. Young, publisher of the Lititz paper since October 15, 1938, will continue temporarily with the editorial and news phases of the paper. He has been an active newspaperman since his graduation from Columbia University in 1925.

Campbell, a Lancaster County native, is a graduate of Valley Forge Military Academy and the Wharton School, University of Pennsylvania. He has been actively engaged in newspaper work in Lancaster County for the past eight years and has been publisher of Lancaster Farming for three years.

Auctioneers Hold Meet

The 16th annual meeting of the Pennsylvania Auctioneers Association was in session yesterday and will continue in session today at the Penn Harris Hotel, in Harrisburg, according to J. Omar Landis, Area chapter president.

Featured speaker at the banquet tonight will be Colonel Bernard Hart, executive secretary of the National Auctioneers Association, whose offices are in Frankfort, Indiana.

(Turn to page 16)

Farm Show Theme
Land Grant Colleges' Centennial

Harrisburg — Tribute to the land grant colleges and universities of the nation on the 100th birthday of their creation will be featured at the 1962 Pennsylvania Farm Show here January 8 thru 12th.

The nation's biggest indoor, mid-winter agricultural exposition is dedicated to the "Century of Progress" achievedby the many state colleges and universities that were made possible when President Abraham Lincoln signed the Morrill Land Grant College Act in 1862.

Each of the 50 states now has one or more such institution of higher education offering instruction, extension and research in agriculture and the mechanic arts, according to State Agriculture Secretary W. L Henning who is chairman of the Farm Show Commission.

Cow Brings $615 At Noll Sale

One registered Holstein cow brought $615 at the Harry Noll dispersal sale on Centerville Road, Lancaster on New Year's day.

Another registered Holstein changed hands at an even $600 while another crossed the block at $590

(Turn to page 16)

Rohrer Wins Tobacco Show

Roy Rohrer of Strasburg R1 took his third consecutive championship Thursday in the Lancaster County Tobacco show.

Rohrer, who has won four state Farm Show tobacco championships turned the trick this week with a hand of long filler.

J. C. Stehman, Lancaster R6 had the top hand of wrapper tobacco while J. Arthur Swarr, Landisville exhibited the best binder hand.

The first FFA exhibition

Broilers Lose Strength

Broilers lost a little of the strength they had been building for several weeks as the sale average at the January 4 auction dropped from the 17.8 of last week to 16.48.

Growers appeared satisfied with the bids however as 105,700 head in 25 lots crossed the block at prices of 16.3 to 18 5. Only one lot was not sold; this lot of 77,000 White Vantress was bid to 16.

Two lots of 1,325 roasters changed hands at 23 to 25.4 and four lots of 3,150 pullets sold for 21.1 to 22. Three lots of 4,800 leghorn fowl brought 8 1 to 8.9.

The complete sale offered 123,275 head in 36 lots and sold a total of 114,975 head in 34 lots

Following is the complete sale report with lot number, seller, grower in parenthesis amount and breed, age in weeks and days, buyer and price.

CODE· WV - white vantress, W Mts. - white mountains, IR - indian rivers, C - cockerels, P - pullets, LF - leghorn fowl.

Delmarva - Georgia

Prices Under Slight Pressure

Delmarva reported prices of 15 60 to 16.80 on 795,500 head at farms during the 24 hou pe_iod ending 10 30 Friday morning.

Live prices averaged slightly more than ¼ cent lower as a barely fair demand met moderate offerings.

With several plants operating today, the estimated slaughter for the week end was 833,000 head compared with the 726,000 head last week end.

Georgia reported prices of 15 to 16 at farms with most of the sales at 15 and some of the sales under contract or other agreement up to one cent over the 15 cent quotation.

Estimated slaughter by Georgia processors for the week end was 1,706,000 head compared with the 1,609,000 head last week end.

FROM WHERE WE STAND -

Ignore The Dragon — It'll Go Away

There is an old Chinese folk tale about a peasant couple with a large number of children. Once a dragon came to their home and began eating the children. As the dragon ate the last child, the old couple were still telling themselves, and each other, "Just ignore it and maybe it will go away."

All too often, we deal with agricultural dragrons in just this fashion. We think the less we say about a problem, the less severe it is apt to get. We seem to feel that if we just ignore our problems they will go away.

But we do not believe our problems can be solved by ignoring them- any more than the Chinese peasants' problem was solved. We believe with inaction a problem has a better chance to become a disaster. Sometimes we make a mistake when we act and hasten the time of the disaster, but more often we avert a serious problem by acting to solve a minor one.

Everywhere we have gone among dairymen since late summer, we have heard the same refrain. "Milk supplies are building up. We need to cut back production. We need to police our industry before we are in the same position the broiler men and the turkey producers have worked themselves into." we hear on every hand.

But it appears that everyone is either trying to ignore the problem in the hopes that it will go away, or everyone is trying to frighten his neighbor into cutting back production. Every dairyman we have talked with is certain someone should do something about cutting the flow of milk, but the only changes we have heard about are increases in cow numbers.

Now couple this situation with the decrease in per-capita consumption of milk and the problem has the makings of a full scale disaster.

Maybe we ought to look at this decreased consumption for a minute. A few weeks ago some well-meaning scientists reported traces of radioactivity in some milk in one of our southern states and almost immediately the consumption of milk was off. It does not matter that the scientists went on to explain that the amount of radioactivity in the milk was well within the limits of safety. The following day, one very well known and respected nationally-broarcast news analysist bawled to the nation's consumers that, "hot milk" had been found. The damage had been done.

The egg producers know something about this kind of situation. When one doctor made some fantastic claims about the harm to the arteries that could accrue from eating eggs, doctors all over the country jumped on the cholesterol bandwagon and began to peddle the same poison.

It did not change the sagging egg consumption picture much when report after report from reputable clinics and doctors all over the world denied the connection between eggs and blood cholesterol. The damage had already been done.

But the egg producers did not hope to frighten their dragon away by ignoring or denying his presence. They admitted they had a fight on their hands and went right into the fray swinging with both fists.

First they armed themselves with facts from reputable sources and then they took the facts to the place where the trouble started. They might have hoped for immediate results, but damage of the kind they hoped to repair is never quickly healed.

Witness an excerpt from a report recently released by the Poultry and Egg National Board.

"As the Poultry and Egg National Board's professional journal egg advertising campaign completes its first year, there are definate indications of its effectiveness in minimizing the cholesteral scare. Physicians and members of related profession are taking a more positive stand for eggs."

Notice the PENEB report says only that physicians are taking a more positive stand. The members of the board by no means feel that the job is finished. In fact, the concluding paragraph of the report states, "While one year is too short a time to evaluate a campaign of this nature, the trend is in the right direction and we are expecting the continuation of positive results in 1962."

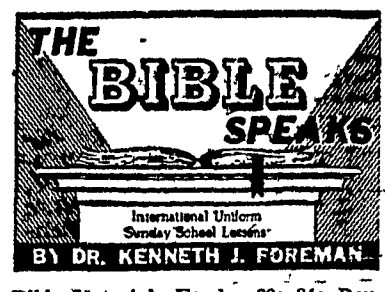
We believe it is the duty of the dairy industry to put into the hands of doctors and other nutritionists the facts concerning radioactivity and milk. We believe those persons most influential as advisors on eating habits must know that a diet rich in calcium (one of the most plentiful minerals in milk) is one of the best defenses the body can have against radiation sickness

We believe milk must retain its place of honor in the American diet, and we believe it is the duty of every dairyman to help preserve that position for dairy products.

We believe it is the duty of producers to help maintain a market which will use all the production at a profit to the producer. Bewailing the fact that too much milk is being produced will never cause one more ounce to be consumed. Crying that someone ought to cut back production while you add more cows will never effectively reduce a surplus. Pretending that no problem exists will not make the problem any less severe.

The dragon is fattening and growing stronger every day. We need not panic, but it won't go away if we just ignore it.

At least that's how it looks from where we stand.



Bible Material: Exodus 32; 34; Deuteronomy 5:1-21, Matthew 5:1-20.
Devotional Reading: Matthew 15:1-9, 19-20.

Laws For Living

Lesson for January 7, 1962

THREE questions are asked sooner or later by every thoughtful person. What can I know? What can I believe? and What shall I do? During the next three months these Bible studies, in which more than 80 denominations join, will be working on that third question. All Christians are agreed that the standard for our life and action in this world is to be found in the Bible. But here the difficulties and hard questions begin. What part of the Bible, Old or New Testaments? The teachings of Moses or the teachings of Jesus? the Law or the Gospel? the Ten Commandments or the Spirit of Jesus? Can a Christian be described as one who has outgrown the Ten Commandments?

Dr. Foreman

No conflict

All this either-or business points in the wrong direction. If the first Christians had thought that the gospel did away with the Ten Commandments, they would not have kept the Old Testament. If the people who wrote the stories of Jesus and his teachings had supposed they were in conflict with the word and will and law of God as they found it in the Old Testament, they would not have undertaken to write the New It is not a case of "either the Ten Commandments or the Spirit of Jesus." It is not a question of Moses versus Christ. Saint Paul calls the Law "holy and just and good" (Romans 7:12.). Jesus said that not the least part of the Law should pass away "till all be accomplished" or "till its purpose is complete" as J. B. Phillips translates it.

What we have is rather the Law in the Gospel (i.e in the whole New Testament teaching), the Law as interpreted by the gospel, the Law seen in the light of the gospel, the Ten Commandments understood as Jesus understood them.

Never obsolete

Confusion about the Ten Commandments would clear away considerably if people realized that they are not like the laws and statutes of our nation or states and cities today. Our laws become obsolete because they are confined to one particular situation, and when the situation no longer exists, the law just fades away. For instance, it used to be required by law in various communities that drinking-troughs be provided for horses. When horses were replaced by horsepower, the horse-troughs vanished. A certain school in New York State, about the year 1845, had among its regulations one that forbade all students to enter "taverns, groceries or other places of entertainment." It is safe to say that that school long since dropped that rule. Grocery stores in the village have changed quite a lot in the past 100 years or more. Now the Ten Commandments never were intended to be like rules and regulations. In the Old Testament, they are given three different times, and each time differently. (Ex. 20, Ex. 34, and Deut. 5.) The careful reader will see that already the Commandments were being revised, as we would say, to fit new situations. They represent principles rather than rules. and so are immortal

A fresh beginning

In the great summary of Jesus' teaching which we have in the Sermon on the Mount, while Jesus had a good deal to say about interpreting the law of God, he did not begin with this. He did not begin with laws of any kind. He began (as everybody knows) with "Beatitudes." That is, he starts off by describing those to whom God's kingdom belongs, those who will see God, those who are rightly called the sons of God If you have the wrong kind of people, no amount of laws will improve matters much. You do not get a better world by saying the Ten Commandments louder and faster You get a better world not by improvements in laws, but by improvements in people "Improvements" is too weak a word. **Radical change** is more what Jesus is calling for

Only those who are so close to the mind and will of God that they can be called "sons of God," only those who are growing in Godlikeness, are the kind of persons who have discovered what it is to live.

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

TO KEEP FERTILIZER DRY—Many farmers have already received some of their fertilizer needs for the spring of 1962; this material should be carefully stored and away from any snow or rain, also it should not be stored on the ground floor because of drawing moisture and becoming lumpy Attention to this matter during the winter months will reduce waste and fertilizer losses.

TO SPRAY TREES OR BRUSH—The dormant spray to kill small trees and brush may be applied at any time during the winter months when temperatures are not below the freezing point. A mixture of 2,4-5 T and fuel oil will kill most any bush or tree; the material should be applied to the bark of the bushes and to the trunk of the trees; with larger trees over six inches in diameter it is best to cut several grooves around the tree in order to permit the material to get into the sap area faster

TO KEEP BEDDING UNDER THE COWS — Dairymen with stall barns are urged to give special attention to the bedding situation under the cows at all times. This is very important to prevent the udders from getting chilled on the cold concrete and to prevent udder injury. In some cases a layer of sawdust or shavings put down first and then the straw on top will make a very good bed Extra effort to keep the concrete covered at all tims will provide cow comfort and less udder problems.

TO PROTECT MANURE — Barnyard manure is still a valuable crop to any farmer; all livestock producers are urged to handle this product carefully in order to prevent the loss of the fertilizer elements. In the case of most dairymen with stall barns the manure is hauled to the field daily by requirement. However with other types of livestock the manure is often piled out in the weather too long; unless the barnyard is very tight, or a manure pit is constructed, many of the valuable elements will be washed out of the manure. If manure is to be piled outside for any length of time, a covered, water-tight manure pit is advised for best storage. Also, the adding of super-phosphate in the barn to the manure will help preserve some of the fertilizer elements.

● Tobacco Show

(From page 1)

in the history of the county show was won by Galen Witmer, East Earl R1, a student at New Holland High School

In other business, the Lancaster County Tobacco Growers Association elected Marlin Cassel secretary to replace Arthur Reist Reelected were Harold B Endslow, President J C. Stehman, vce president, and Willis Hackman, treasurer.

Judges for the show were Ben E Mann, independent broker, Vincent Hurst, retired from Bayuk Cigars Inc. and George Carmin, Keneral Cigar Co.

Farm Museum On Display At Farm Show

Harrisburg—Visitors to the 1962 Pennsylvania Farm Show, will have an opportunity to see an actual country kitchen of the 18th Century, thanks to the efforts of some Lancaster Countians.

The Pennsylvania Farm Museum will reproduce the Colonial setting at its booth on the first concourse of the Large Arena building.

The state-owned museum at Landis Valley houses a collection of 250,000 oldtime tools and kitchenware arranged to portray life on Pennsylvania farms from Colonial Days to the Gay Nineties.

The Farm Show exhibit will contain everything that was commonplace in a Colonial kitchen, including fireplace benches, stretcher table, and methods of cookery.

Spinning, weaving and other home crafts of the era will

(Turn to page 15)

County Future Farmers Win Fourteen Degrees

Fourteen Lancaster County Future Farmers of America will be awarded Keystone Farmer Degrees at ceremonies next Wednesday.

The Keystone Farmer Degree, the highest award that can be given by the state association of FFA is conferred on only two per cent of the total state membership.

In addition to outstanding work in the vocational agriculture classroom, recipients of the degree must have above average participation in school and community activities and FFA work. They must have demonstrated some inclination toward becoming established in the business of agriculture and have earned at least $500 in supervised farming programs

The awards will be presented by the State Officers of FFA during the winter convention at 1 30 January 10 in the Forum of the Education Building, Harrisburg

Following is a brief summary of the activities of the Keystone Degree winners.

JAMES RICHARD EBY

James is a 12th grade student in vocational agriculture at Pequea Valley High School He is the son of Gladys I Eby and the late Chester W Eby, Kinzers R1.

An honor student, James was a member of the high school baseball and soccer teams and student council, and was homeroom treasurer and president.

James was winner of the Sears Gilt program in his chapter and was awarded the Red Rose Farmer Degree in the county chapter FFA He was chairman of the Program of work committee and banquet awards committee in his local FFA chapter.

James is a member of the Pequea Presbyterian Church and vice president of the

Twelve County Girls Are Keystone Homemakers

Twelve Lancaster County Future Homemakers will be among 168 girls from all parts of Pennsylvania to receive the coveted State Homemaker degrees during the farm show next week.

The State Homemaker awards are the highest that can be earned by members of the Pennsylvania Association, Future Homemakers of America. They will be presented by officers of the 13,000-member state association at the annual FHA convention next Wednesday.

In order to qualify for the FHA State Homemaker degree, member candidates, in addition to being outstanding homemaking students, must have shown achievements in a program of activities at local, regional, state and national levels.

From Lancaster County the following girls will be given certificates of their awards and a letter of recommendation from the Governor of the Commonwealth at ceremonies Wednesday morning in the forum of the Education Building, Harrisburg: Janet Ginder, Mount Joy R1, Donegal High School: Anna Ruth Swanger Manheim, Manheim Central High School, Ruth Graybill, New Holland, Garden Spot High School; Elaine Erb, of Columbia R2; Patricia Fellenbaum, Washington Boro, R1; Janet Fry, Conestoga R2; Theresa Huber, Pequea R2; Judith Warfel, Conestoga R2; Kathleen Hoover, Lancaster; Marion McKinsey Millersville; Frances Mellinger, Willow Street R1, and Rosalie Kreider, of Willow Street R1, all of Penn Manor High School.

Following is a short summary of the activities which won the degree for the Future Homemakers.

JANET FRY

Janet, the daughter of Mr. and Mrs. James Fry, of Conestoga R2 is a student at Penn Manor High School. She is a member of the Glee Club and Future Nurses Club at her school as well as the Penn Manor Chapter Future Homemakers of America.

THERESA C. HUBER

This junior student at the Penn Manor High School rose from the post of Parliamentarian last year to that of President of her chapter of FHA this year.

Theresa attended the state conventon of FHA at Penn State Unversity for the past two summers as a discussion leader. She is a member of the Penn Manor Sunshine Girls and has served one term as historian.

A member of the senior girl scout troop of Pequea, Theresa has been chosen to

The WHY and HOW

— OF —

EARLY BIRD

High Producer Pellets!

WHY: 1. They make a substantial contribution in maintaining NORMAL UNIFORM Feed intake, thus MINIMIZING "ups and downs" in daily egg production.

2. They help maintain production during "stress" periods.

3. They permit backward birds in the flock to get extra feed HIGH in VITAMINS, AMINO ACIDS, and MINERALS thus keeping these birds competitive with more aggressive high producers who try to control access to feeders and fountains.

IN SHORT — THEY HAVE PROVEN VALUE IN INCREASING AND MAINTAINING EGG PRODUCTION

and

BREEDER FLOCK OWNERS PLEASE NOTE: THEY HAVE PROVEN VALUE IN INCREASING AND MAINTAINING HATCHABILITY

HOW TO USE:

3 - 5 lbs. per 100 head per day on commercial laying flocks.
4 - 7 lbs. per 100 head per day on breeder flocks.
(Increase amount fed under stress conditions such as hot days, extremely cold days, or during respiratory difficulties. Decrease to regular level when stress is removed).

THE RECORD SPEAKS FOR ITSELF!

Many of our leading egg producers, breeders, and hatcherymen have used them for several seasons and are full of praise for their PERFORMANCE.

Used as recommended they will give you a SPLENDID RETURN on your investment.

May We Have YOUR Order Please?

RONALD L KREIDER

Ronald is the sentinel in the Solanco Chapter FFA at Solanco High School, Quarryville He is the son of Mr. and Mrs J. Lester Kreider, Quarryville R2

Lester built his farming program around Holstein dairy animals and field corn He represented his chapter at FFA activities week at the Pennsylvania State University and is holder of the Red Rose Degree in the county chapter.

JERRY SNADER

The president of the newest chapter of FFA in the county (the Cloister Chapter at Ephrata) is Jerry Snader, the 17 year old son of Mrs. Eva Snader, Ephrata R1.

Jerry is Chaplain in the county chapter of FFA and a Red Rose Farmer Degree winner this year. He was also a representative from the county to the American Institute of Cooperation at Juniata College last summer.

Included in his farming program are sheep, dairy animals, swine, tobacco and wheat

PAUL TRIMBLE

Paul rose from the post of assistant treasurer of the Solanco FFA in 1960 to President of the chapter this year

The senior in vocational agriculture at Solanco High School, Quarryville, is the son of Mr and Mrs Daniel E Trimble, Quarryville R1.

Paul has carried projects in field corn and feeder pigs, but he has built his farming program around Holstein dairy cattle.

Active in 4-H, Paul has served as president of the county 4-H agricultural council He was a member of the dairy judging team which

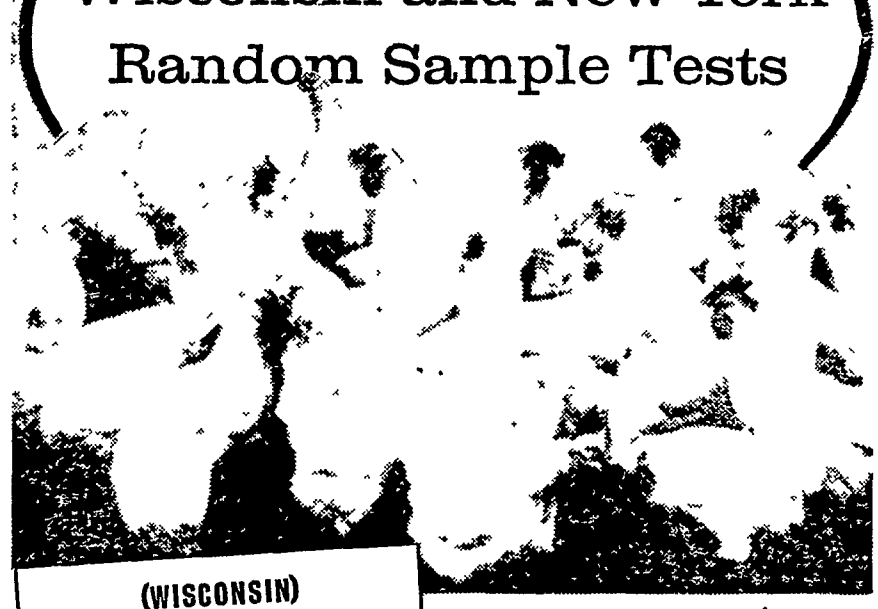
DeKalb Layers TOP Wisconsin and New York Random Sample Tests



(WISCONSIN) COMPARISONS OF DEKALB AND TEST AVERAGES

	DeKalb 131	Test Avg. (26 Entries)
Eggs (Hen-Day From Housing)	278 4	255.0
% Large and Extra Large Eggs (Entire Laying Period)	80.3%	76 3%
% Large and Extra Large Eggs—July 1961 (19 Days)	98.5%	94.3%
Feed Efficiency (lbs. Feed per doz. Eggs)	3.94 lbs.	4.29 lbs.
Mortality (laying period)	2 0%	12 6%

BREAK TEST RECORD

DeKalb 131 Layers were at the top in the recently completed 6th Wisconsin Random Sample Test. Their total hen-day production from housing was 278 4 eggs . . . the highest record ever made in this test.

During the laying period of this 500 day test, 80.3% of the DeKalb 131 eggs were large or extra large; and in the final 19 days in July 1961, 98.5% were large or extra large. Mortality of DeKalb 131's at 2% was tied for the lowest in the test. Average of all 26 entries on mortality was 12.6%. Examination at the end of the test showed 47 of the 49 DeKalb birds to be in good laying condition. Comparisons of the DeKalb 131 Layers and the test average are shown on the left.

New York Results Also Place DeKalb at Top

Official Final Results of the 11th Central New York Random Sample Test which included 22 entries, are shown below.

	DEKALB	TEST AVERAGE
Best Income Over Feed & Chick Cost	$2 952	$2 317
Greatest Hen Day Production	249 8	222.8
Most Eggs Per Pullet Housed	242 6	213 3
Less Pounds Feed Per Dozen 24 oz. Eggs	4.04	4.56
No Broodiness	0 0	4 8
Lowest Percentage of Blood Spots	1.97	5.05

Results of 2nd North Carolina Random Sample Test (2 year-averages) show DeKalb produced the greatest number of eggs per pullet housed Only one other entry showed better livability (8 500 days) And, only one other entry had better feed efficiency.

For the Farm Wife and Family

Macaroni In A Minute

By Mrs. Richard C. Spence

Did you realize that within fifteen to twenty minutes (from the time you start 'til the dinner bell is rung) that a tempting macaroni meal can be ready?

While an easily assembled macaroni dish cooks, a salad can be tossed or a vegetable heated, depending upon your choice of accompaniment for the main course. Canned or fresh fruit, cookies, sherbet are fine dessert suggestions.

The calorie-conscious are happy to learn they can enjoy energy-giving elbow macaroni, spaghetti and egg noodles, and still keep calorie intake at the desired level Macaroni products supply important protein, vitamins, and minerals, and furnish satisfying eating The key to including these foods in a low-calorie diet is the selection of what is to be eaten with them. Vegetables to choose from are carrots, tomatoes, salad greens, cucumbers, beets, green beans, celery, cabbage, squash Broiled or baked fish, meat, poultry add variety, as do fresh fruits served for dessert.

In planning slimming meals it is the total number of calories which is important, and the menus should add up to well balanced meals.

We have for you some menus and the recipes for the macaroni dishes included in those menus.

MENU

Low Calorie Macaroni Skillet
Lettuce Tomato Salad
(1 teaspoon Mayonnaise)
Raspberry Water Ice (½ cup)
Sugar Wafers (2)
Total calories per serving-550
Preparation Time - 20 min.

LOW CALORIE MACARONI SKILLET

1 tablespoon salt
3 quarts boiling water
2 cups elbow macaroni (8 ounces)
1 beef bouillon cube
1 cup boiling water
1 can (12 ounces) luncheon meat
½ cup chopped onions
1 teaspoon seasoned salt
⅛ teaspoon pepper
½ cup chopped parsley

Add one tablespoon of salt to three quarts rapidly boiling water Gradually add macaroni so that water continues to boil. Cook, uncovered, stirring occasionally until tender. Drain in colander. Meanwhile, combine buillon cube, 1 cup boiling water and onions in large skillet; mix well. Cover and cook over low heat 10 minutes. Add macaroni and remaining ingredients; mix well. Cook 5 minutes, stirring occasionally. Serves six. 325 calories per serving.

* * *

NOODLES & FISH DINNER
Green Beans (½ cup)
Molded Orange Gelatin
(about ½ cup)
Chocolate Snap Cookies (2)
Total calories per serving 550
Preparation Time - 20 min

NOODLE & FISH DINNER

1 tablespoon salt
3 quarts boiling water
8 ounces medium egg noodles (about 4 cups)
2 tablespoons butter or margarine
4 fresh or frozen flounder fillets
2 tablespoons chopped onion
2 beef bouillon cubes
1 cup boiling water
2 tablespoons flour
½ cup milk
¼ teaspoon dill seed
½ teaspoon salt
⅛ teaspoon pepper
½ lemon, cut in wedges

Add 1 tablespoon salt to 3 quarts rapidly boiling water Gradually add noodles so that water continues to boil. Cook uncovered, stirring occasionally, until tender Drain in colander. Meanwhile, melt butter or margarine Add flounder and onion and cook over low heat until flounder is browned on both sides and tender. Arrange noodles and flounder on heated platter Combine bouillon cubes and 1 cup of boiling water; stir until bouillon cubes dissolve. Add flour to onion-butter mixture stir well Gradually stir in bouillon, milk, dill seed, one-half teaspoon of salt and pepper and cook over low heat, stirring constantly, until thickened. Pour sauce over noodles and flounder. Garnish with lemon wedges. Serves 4 - (438 calories per serving).

CASHMAN Hi-Cash PRODUCTION PULLETS score three great 1960-61 Contest Wins!

Year after year (for 15 years) Cashman Hi-Cash Pullets have stood at or close to the head of the procession of Contest winners We thought they'd done their best—but we were wrong! The 1960-61 year was, in some respects, the best Hi-Cash year First we could announce the 3-year Summary Award presented by the Missouri Random Sample Test. We also had the highest net profit pen at British Columbia Random Sample Test and the highest pen in the 1960-61 Missouri Standard Test Why not line up with Hi-Cash and "cash in" on these winning pullets?

(From page 13)

tomato, 2 slices bologna)
Orange Sherbet (½ cup)
Total calories per serving 500
Preparation time - 15 min

VEGETABLE NOODLE SOUP

3 quarts boiling water
7 chicken bouillon cubes
1½ cups diced squash
1 cup peas
½ cup diced carrots
½ cup chopped celery
¾ cup chopped onions
2 teaspoons salt
⅛ teaspoon pepper
8 ozs fine egg noddles

Combine water, bouillon cubes, squash, peas, carrots, celery, onions, salt and pepper Cover and cook 5 - 10 minutes Gradually add noodles so that liquid continues to boil Cook uncovered, stirring occasionally until noodles are tender Serves 6 228 calories per serving.

* * *

EGG AND MACARONI SALAD
Broccoli Spears (2 small)
Carrot Salad
(1½ cups grated carrot, 1 tablespoon lemon juice, 1 lettuce leaf) Red Apple
Total calories per serving 540
Preparation time - 15 min.

EGG & MACARONI SALAD

1 tablespoon salt
3 quarts boiling water
2 cups elbow macaroni (8 ounces)
½ cup mayonnaise
2 tablespoons lemon juice
4 hard-cooked eggs, chopped
½ teaspoon salt
2 tablespoons chopped canned pimiento
2 tablespoons chopped olives
2 tablespoons chopped chives
Crisp lettuce

Add one tablespoon salt to rapidly boiling water. Gradually add macaroni so that water continues to boil. Cook uncovered, stirring occasionally, until tender. Drain in colander. Rinse with cold water, drain Meanwhile, combine mayonnaise and lemon juice; blend. Combine macaroni, eggs, ½ teaspoon salt, pimientos, chives; toss lightly Combine macaroni mixture and mayonnaise mixture Toss lightly but thoroughly Serve on lettuce Serves 4 - 433 calories per serving

QUICKIE SPAGHETTI AND SCALLOPS
Asparagus Spears (6 medium)
Spiced Peach Half (1 half)
Total calories per serving 490
Preparation time - 15 min

QUICKIE SPAGHETTI AND SCALLOPS

2 tablespoons salt
4-6 qts boiling water
1 pound spaghetti
2 cans (8 ounces each) tomato sauce
¼ cup lemon juice
½ teaspoon oregano
1½ pounds scallops
Salt and pepper

Add 2 tablespoons salt to rapidly boiling water Gradually add spaghetti so that water continues to boil. Cook uncovered, stirring occasionally, until tender Drain in colander. Meanwhile, combine tomato sauce, lemon juice, oregano and salt and pepper Heat to boiling point add scallops. Cover and cook over low heat about 8 minutes, or until scallops are tender, stirring occasionally Serve with spaghetti Serves six - 427 calories per serving.

* * *

SPAGHETTI & MEAT SAUCE
Cole Slaw (⅔ cup)
Chilled Minted Apricot Halves (about 4)
Total calories per serving 515
Preparation time - 20 min

SPAGHETTI & MEAT SAUCE

6 tablespoons flour
2½ cups boiling water
1 tablespoon chopped celery
2 teaspoons salt
⅛ teaspoon pepper
2 cans (3 ounces each) sliced mushrooms
¼ cup finely chopped parsley
1 teaspoon garlic powder
½ teaspoon basil
2 pounds ground beef round
1¾ cups cooked whole onions (one pound can, drained)
2 tablespoons salt
4-6 quarts boiling water
1 pound spaghetti

Slowly stir flour into 2½ cups boiling water. Add celery, 2 teaspoons salt, undrained mushrooms, 2 tablespoons parsley, basil, garlic powder, beef and onions. Cover and cook over low heat, stirring occasionally, 15 minutes. Meanwhile, add 2 tablespoons salt to 4-6 qts. rapidly boiling water. Graually add spaghett so that water continues to boil. Cook uncovered, strring occasionally, until tender. Drain in colander. Serve meat mixture with spaghetti. Serves ten. 386 calories per serving

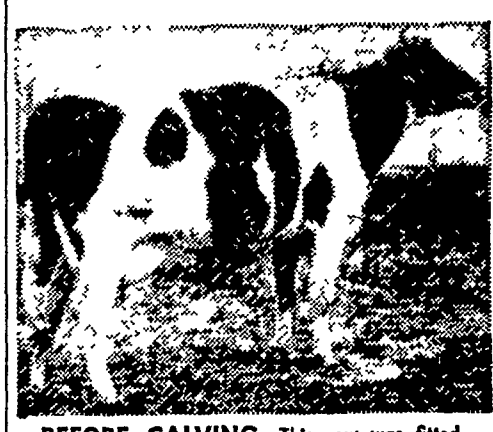
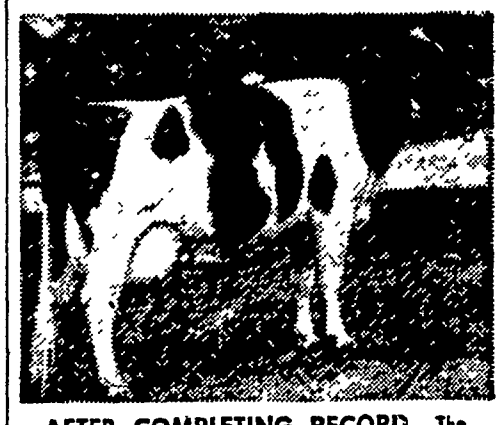
COWS PROPERLY CONDITIONED ...during the dry period PRODUCE UP TO 25% MORE MILK!



BEFORE CALVING This cow was fitted on the Pioneer program for 60 days before calving. Note the excellent "dry cow" body condition.



AFTER COMPLETING RECORD The same cow after having produced 23,044 lbs. of milk and 941 lbs. of fat as a 4 year old. Note the extreme dairyness and exceptional body condition shown after this cow produced 11½ tons of milk!

600 pounds of PIONEER DRY and FRESHENING yields an extra TON OF MILK!

Proper feeding of the dry cow is the most important single factor affecting herd health, longevity, and a sustained high level of milk production. In 60 days, while the cow is dry, Pioneer Dry and Freshening feed will repair the body from the previous lactation, build a reserve of body condition for the next lactation, and develop a stronger calf. In addition your cows will have less calving difficulties, eliminate placenta quickly, have less udder congestion, and *most importantly they will produce up to 25% more milk!*

See us today for full particulars.

bidding of 30 for wrappers and 18 to 20 for fillers, depending on crop quality. P. Lorillard was reported to be offering 30 and 20.

Reports late Thursday indicated that Bayuk Co. had some buyers on the roads, but no reports of purchases by that firm were received.

While action was quite general most reports Friday morning indicated that buying was quite spotty.

● Auctioneers

(From page 1)

Seminar discussions on the topics of Farm Machinery at Auction and License Act Requirements were held last night. Tonight, Woodrow Roth, Emmaus, president of the PAA will preside at the annual banquet.

The PAA is affiliated with the national Auctioneers Associaton and the members are represented throughout the state by five area chapters, Landis said.

● Cow Sale

(From page 1)

and two went to new owners at $520 each.

The top grade cow in the sale brought $580. Other grade cows were bid in at $485 and $460 with several head going over $400. A total of 37 cows and first calf heifers were sold along with 28 head of younger stock.

Mixed alfalfa hay brought $32.50 per ton. Feed carts sold for $80 and $72.50 and three milker units brought $72.50 each. A 375 gallon bulk milk tank sold for $1080 and a thermostatically controleed ventilation fan brought $152.50.

Diller and Kreider were the auctioneers.
